Skin Benefits by Natural Extract

Hippophae Rhamnoides (Sea Buckthorn)

"food for your skin" It contains 190 bioactive substances that nourish the body & skin from both the inside-out. Some of the most powerful elements of this super fruit are the vitamins that aren't often found in such quantities all together in a single plant source.

Ginkgo Biloba Extract

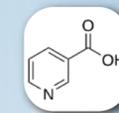

Ginkgo biloba benefits for skin have been suggested to include potent antioxidant protection, skin-soothing effects, increased skin-hydration, and significant anti-aging defense.

Punica Granatum Fruit Extract

Pomegranate is rich in antioxidants that help fight and repair free radical damage from the sun and environmental stressors such as hyperpigmentation and age spots.

Niacinamide

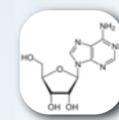

Also known as vitamin B3. Very effective skin-restoring ingredient that offers multiple benefits for aging skin. Visibly improve the appearance of enlarged pores, uneven skin tone, fine lines, dullness, and a weakened skin surface.

Mulberry Fruit Extract

Morus alba contains many natural polyphenols and flavonoids, which have antioxidants, anti-inflammatory, anti-cancer, antibacterial, and anti-aging properties.

Adenosine

Functions as a good soothing and skin-restoring agent. Proven anti-wrinkle benefits due to its ability to energize skin's surface so it looks smoother and younger.

Ficus Carica Extract

carica fruit extract have effects on skin melanin, transepidermal loss, hydration values and sebum content and possibly could be used against for hyper pigmentation, acne, freckles and wrinkle.

The Incredible Benefits of Seabuckthorn For Your Skin

VITAMIN A

- Applied topically has been shown to improve the appearance of the wrinkles & help to promote the production of skin-building compounds
- Vitamin A (Retin-A) for diminishing hyper-pigmentation, treating acne and smoothing wrinkles.
- Vitamin A in the form of Beta Carotene easily absorbed and utilized by the skin.

VITAMIN B COMPLEX

- Vitamin B dubbed as "anti-aging ingredient of the future"
- Help skin retain moisture, reduce skin flaking, decrease hyperpigmentation and even reduce skin cancer.

VITAMIN C

- A popular additive in skincare for many years in the form of ascorbic acid.
- An important antioxidant, fighting water/plasma-based free radicals which age skin.
- Stability and maintenance of collagen, the substance that keeps skin looking plump and youthful.
- Helps with hyperpigmentation, reducing brown spots and smoothing the complexion.

VITAMIN E

- Is a natural partner for Vitamin C as it fights to defend against fat-soluble free radicals (as opposed to water-soluble). Using the two together protects your skin on all fronts.
- Has been used for many years to help heal scars and diminish stretch marks.
- May dramatically reduce the appearance of deep wrinkles, smooth rough patches of skin and improve overall skin health.
