SPECIFIC PROTECTION

SBE 护理区

Skin / 肌肤:

Rich in fatty acids (Omega 3, 6, 7, 9), Vitamin C, Vitamin E and various antioxidants, moisturize and restore youthful, firm and smooth skin from inside out, as well as improve acne, pigmentation and other issues. For burns, scalds, cuts, sunburns, rashes, dermatitis and other skin problems, it also plays a therapeutic role in accelerating repair and new cell generation.

富含脂肪酸(Omega 3, 6, 7, 9)、维生素C、维生素E及各种抗氧化剂, 从内至外滋润并恢复年轻、紧致和嫩滑的肌肤, 以及改善粉刺和色素沉着等问题。对于烧伤、烫伤、割伤、晒伤、皮疹、皮炎等各种皮肤问题, 也起着加速修复与新细胞生成的治疗性功效。

Cardiovascular System / 心血管系统:

Helps to reduce "bad cholesterol" (LDL) and increase "good cholesterol" (HDL) level. Palmitoleic acid (Omega 7) reduces inflammation (C-reactive protein), prevents cardiovascular diseases such as atherosclerosis, regulates blood lipids (cholesterol and triglycerides) and prevents diabetes.

有助于减少“坏胆固醇”(LDL)并增加“好胆固醇”(HDL)含量。其棕榈油酸(Omega 7)则降低炎症反应(C-反应蛋白), 预防动脉粥样硬化等心血管疾病, 调节血脂(胆固醇和甘油三酯)并预防糖尿病。

Digestive System / 消化系统:

The various "good fatty acids" in seabuckthorn help to protect the inner membrane surface, and play an important role in organ protection, enhance mucous membrane formation, and reduce inflammation. It can also prevent and treat various gastrointestinal problems, such as gastritis, colitis, gastric ulcer, diverticulitis, hyperacidity or other chronic inflammations.

沙棘中的各种“好脂肪”有助于保护体内膜表面, 对器官的保护、润滑粘膜的形成、炎症的消除等起着重要的角色。它也能预防并治疗各种胃肠问题, 如胃炎、结肠炎、胃溃疡、憩室炎、胃酸过多或其他慢性炎症。

Body Weight / 体重:

Studies have confirmed that sea buckthorn can inhibit the synthesis of cholesterol and triglycerides, remove and reduce excess body fat. It can also improve insulin resistance, increase the sensitivity of insulin receptors on the cell membrane, promote the conversion of sugar into energy, prevent fatty liver, improve metabolism and diabetes problems.

研究证实沙棘能抑制胆固醇与甘油三酯合成, 清除和分解体内多余脂肪。它也能降低细胞对胰岛素的抵抗, 提高细胞膜上胰岛素受体的敏感度, 促进糖分转化为能量, 进而预防脂肪肝、代谢及糖尿病等问题。

Eyes / 眼睛:

The carotenoid and antioxidant content in seabuckthorn is extremely high, and it is also suitable for eye's health care. Seabuckthorn can improve various eye problems by relieving inflammation and reducing oxidative damage, such as dry eye, pain, redness, fever, blurred vision caused by aging, long-term exposure to computer screens or improper use of contact lenses or any that causes eye discomfort.

沙棘中的类胡萝卜素和抗氧化剂含量极高, 也适用于眼部医疗与保健。沙棘能透过缓解炎症及减少氧化损伤来修复各种眼部问题, 如干眼症、疼痛、发红、发热、老化所致的视力模糊、长期面对电脑荧幕或隐形眼镜使用不当所造成的眼部不适。

Brain / 大脑:

The abundant of polyunsaturated fatty acids in seabuckthorn are the main components of human brain lipids and are essential for brain cell division, proliferation, development and nerve conduction. This strong antioxidants in seabuckthorn can eliminate free radicals and repair damaged brain cells, preventing or reducing cognitive decline in the brain.

沙棘中丰富的多不饱和脂肪酸是人脑脂质的主要组成成分, 是脑细胞分裂、增殖、发育和神经传导不可少的物质。沙棘中极强的抗氧化剂能消除自由基并修复受损的脑细胞, 预防或减少大脑的认知衰退。

11 BENEFITS 特点

- 1. Anti-oxidation and anti-aging:** Rich in powerful antioxidants, such as Vitamin C, Vitamin E (tocopherols and tocotrienols), carotenoids, flavonoids, phenols, phyosterols and proanthocyanidins.
抗氧化及抗衰老: 富含强大抗氧化剂, 如维生素C、维生素E(生育醇及生育三烯酚)、类胡萝卜素、黄酮类化合物、酚类、植物固醇及原花青素等。
- 2. Repair and moisturize the skin:** Fatty acids and vitamins moisturize the skin from inside out.
修复并滋润肌肤: 脂肪酸及维生素从内至外滋润肌肤。
- 3. Treatment for skin problems:** It has a therapeutic effect on cuts, sunburns, rashes, dermatitis, acne and eczema.
治疗皮肤问题: 对割伤、晒伤、皮疹、皮炎、粉刺或湿疹等问题起着治疗性作用。
- 4. Smooth out wrinkles:** Rich vitamin C is very important for the formation of skin collagen.
抚平皱纹: 丰富的维生素C对皮肤胶原蛋白的形成非常重要。
- 5. Treatment for digestive problems:** Improve gastritis, colitis, gastric ulcer, diverticulitis and chronic inflammation of the intestines and stomach.
治疗消化系统疾病: 改善胃炎、结肠炎、胃溃疡、憩室炎及肠胃慢性炎症。
- 6. Anti-inflammatory:** Maintain the health of the heart, internal organs, nerves and digestive system.
抗炎: 维护心脏、内脏、神经及消化系统等健康。
- 7. Improve the sensitivity of insulin receptors:** Improve diabetes problems.
提升胰岛素受体的敏感性: 改善糖尿病问题。
- 8. Maintain a healthy body weight:** Remove and reduce excess body fat.
维持健康体重: 清除和分解体内多余脂肪。
- 9. Improve constipation:** Continuous intake of seabuckthorn can promote intestinal smoothness.
改善便秘问题: 持续性地摄取沙棘能促进肠道滋润。
- 10. Strengthen memory:** Maintain and prevent brain degeneration.
加强记忆力: 维持和预防脑部退化。
- 11. Eye care:** It is rich in important nutrients needed by the eyes and repairs vision function.
眼部保健: 富含眼部所需重要的营养, 修复视力功能。
