UPGRADED WITH MORE POTENT FORMULA

Seabuckthorn

- Source of powerful nutrients such as Vitamin B1, B2, B3, B6, C, E
- Powerful healing properties
- Cell Regeneration Properties
- Powerful healing of tissue damage

Platinum Flakes

Platinum has been shown to exhibit antioxidant activity, reducing inflammation and free-radical damage and protecting the outer skin layer. Ultimately this leads to healthier, stronger, and brighter skin.

Lavender

Anti-bacterial and anti-inflammatory properties, help to calm skin and reduce the swelling that can accompany acne and other irritations, good for minimizing the appearance of scars, thus being useful for healing skin after a blemish.

Licorice (Akar)

The extract has been shown to decrease melanin content when applied to the skin and so reduce skin pigmentation, acts as an anti-inflammatory to reduce itchy and inflamed skin, offers anti-bacterial benefits for the skin, being a strong antioxidant, helps to protect the skin from the sun and pollutant-induced attack by free radicals.

Beta-glucan

It has some antioxidant properties and is a skin-soothing agent. Beta-glucan is considered an excellent ingredient for improving the look of redness and other signs of sensitive skin.

Hyaluronic Acid

Hydration, humectant, lipid barrier enhancement, increased resilience, tighter skin tone, smoother texture, less visible fine lines and wrinkles, stimulates skin cell regeneration, prevent pigmentation.

Saccharide Isomerate

Reduces Wrinkles By Up To 79.3%. A healthy skin hydration helps prevent the appearance of wrinkles and lines. Most importantly, as saccharide isomerate increases hyaluronic acid synthesis in the skin, the anti-wrinkle effects tend to be long-lasting.
