*Cleansing Oil*

### 1. Why should I use LA' SOULGOLD Cleansing Oil?

LA'SOUL GOLD Cleansing Oil, where it could be the solution for getting rid of acne-caused dirt, blackheads and even serious cases of stubborn, cystic zits. The Oil Cleansing Method is based on the principle that oil dissolves oil (a basic rule of chemistry), which means that putting oil on your skin can help minimize, or reduce, the amount of oil your skin is producing.

### 2. How often shall I use LA' SOULGOLD Cleansing Oil?

Because it will vary based in your skin type. Dry and oily skin may benefit from oil cleansing method regularly each night, while sensitive skin may only need to be cleansed once every few days.

### 3. My skin has started breakout after Oil Cleansing Method (OCM). What should I do?

If you've ever had a facial, you may have been told to expect your skin to breakout. This is mostly due to the ingredients in the facial helping your skin "push out" impurities. As a deep cleansing method, oil cleansing can cause the same reaction.

LA'SOULGOLD Cleansing Oil is a lightweight, antioxidant-rich pre cleanse for all skin types. A deep-cleansing blend of natural oils melt away all traces of makeup, dirt, oil and impurities while maintaining skin's natural moisture levels. The formula feels luxurious, emulsifies easily and rinses completely, leaving skin perfectly clean and soft.

#### Hippophae Rhamnoides Oil

- Source of powerful nutrients such as Vitamin B1, B2, B3, B6, C, E
- Powerful healing properties
- Cell Regeneration Properties
- Powerful healing of tissue damage
